Dear Sir:

I have an old New England coin made in 1662, on one side are the letters "New England" and the figures 1662 with the numerals II beneath them, on the other are the letters "In Massachusets" and some thing like a pine tree in the centre will you be so kind as to let me know what kind of a coin it is, also the value if any

Yours &c
Chas. E. Ozzt

P.S.

Below is the exact size, with an imperfect description
